\$ESTO Contingent Tax Distribution

Order size: 0 - 10,000,000

Taxes are distributed to MUL's Liquidity Pool.

Order size: 10,000,000 - 1,000,000,000

Taxes are distributed to MAT's Liquidity Pool.

Order size: 1,000,000,000 - 50,000,000,000

Taxes are distributed to BZO's Liquidity Pool.

The ESTO token, an integral component of the BMM microsystem, serves as a catalyst for the growth and prosperity of BZO, MAT, and MUL tokens thus adding value to the Atropa ecosystem. ESTO empowers these tokens to flourish within their respective niches. As ESTO enhances the efficiency and effectiveness of the microsystem, it concurrently elevates the overall value proposition of the B.M.M microsystem and Atropa ecosystem. This symbiotic relationship presents a compelling opportunity for synergistic growth, thereby amplifying the value of \$DAI, \$BEAR, and \$Atropa itself. Through the interconnected dynamics of \$BZO, \$MAT, \$MUL, and now \$ESTO! token holders are poised to unlock new avenues for value creation and innovation within the decentralized finance landscape.
